- English A2-B1

### INTERN EXPERIENCE

Anayurt Savunma - Ankara - June 24 & August 24  
Bilgi Teknolojileri ve İletişim Kurumu - Ankara - June 25 & July 25

Here, I had information about how things are going in the defense industry and what kind of technologies are used, I got to know good people authorized in this field and it was more than an internship for me.

### ABOUT ME

I am a Computer Engineering student; I took part in application development processes in C#, .NET, Python, Java and React languages with internship experience in the defense industry. Prone to analytical thinking and teamwork; I gained practical experience in both software and system integration by taking an active role in the Capsule Omega UAV project. I aim to contribute to my career by focusing on the defense industry.
